

COMPANY STANDARD LAYTIME TERMS & CLAIMS PROCEDURE

Bluewater Oceanic Shipping Pte. Ltd., Singapore - Chartering & Claims Manual, Section 7 (rev. 2026)

7.1 Standard positions

Owners' preferred terms: NOR WIBON / WIPON / WIFPON / WCCON; laytime to commence 6 hours after NOR; shifting anchorage to berth to count as laytime; demurrage per day pro rata; despatch half demurrage on laytime saved; claims time bar not less than 90 days.

7.2 Hierarchy of documents

Where a fixture recap conflicts with the printed charter party, the recap prevails. Rider clauses prevail over printed clauses. Always record which clause version was applied.

7.3 Validating the NOR

Confirm the vessel was at the place required by the C/P when NOR was tendered (e.g. within port limits), within any tendering hours, and physically ready. If the first NOR is invalid, use the first valid re-tendered NOR. Do not rely on a charterers' 'accepted' stamp to cure an invalid NOR.

7.4 Weather deductions

Deduct rain only where the SOF shows operations actually stopped due to weather, and cross-check against an independent weather log. Where SOF and Master disagree, rely on the weather log.

7.5 Once on demurrage

After laytime expires, no further deductions apply except those the C/P expressly states apply to demurrage (e.g. shifting under some forms).

7.6 Data quality

Check the SOF for chronology errors (end before start, overlapping events, missing resumption entries). Correct only with supporting evidence and record the correction in the laytime statement.

7.7 Claim submission

Submit claim letter, laytime statement, NOR(s), signed SOF and weather evidence. Diarise the time bar on completion of discharge and submit at least 14 days before it expires.
